The Yellowstone River is the longest free-flowing (undammed) river in the contiguous United States. The longest river in the U.S. by miles, the Missouri River, begins in Montana at the “Three Forks” - the intersection of the Gallatin, Madison and Jefferson Rivers. Flathead Lake is the largest fresh water lake west of the Mississippi River.

Alaska is the largest state in the United States, and was sold for a total of \$7.2 million, which amounts to about 2 cents per acre. The state was purchased from Russia in 1867. In the 50 years that followed, America made their money back for the \$7.2 million more than 100 times over.

You don’t need a driver’s license to compete in NASCAR.
Technically, a state’s driver’s license is not needed to compete in NASCAR. Even drivers who have had their actual driver licenses suspended for everything from reckless driving to DUIs were still able to race in NASCAR.

Montana's largest county by population is Yellowstone County, home to almost 159,000 people according to 2017 estimates. That's 35 percent more people than the next most-populated county (Missoula), and 300 percent more than the least-populated county (Petroleum). Approximately 1 in 7 Montanans live in Yellowstone County.

Interpol (International Criminal Police Organization) began in 1914 when legal professionals from 24 countries got together to discuss catching fugitives.

If you're lucky enough
to live in Montana,
you're lucky enough.
